Energy storage power supply intelligent manufacturing enterprise

Overview

What is integrated power supply?

Won the title of "Shanghai Enterprise Technology Center", "Integrated Power Supply" was recognized as one of the top 100 projects for the transformation of high-tech achievements in Shanghai, Huijue's first "Container Energy Storage Cabinet" product was officially sold to Northern Europe.

Who is Tu Energy Storage Technology (Shanghai)?

Safe operation and system performance optimization. TU Energy Storage Technology (Shanghai) Co., Ltd., founded in 2017, is a high-tech enterprise specializing in the research and development, production and sales of energy storage battery management systems (BMS) and photovoltaic inverters.

What is the new-type energy storage manufacturing industry?

According to an action plan jointly issued by the Ministry of Industry and Information Technology and seven other government organs, the new-type energy storage manufacturing industry refers to the sector that produces energy storage, information processing, safety control, and other products related to new energy storage methods.

What is energy storage?

Energy storage is a key component of IEMS and is defined as an energy technology facility for storing energy in the form of internal, potential, or kinetic energy using energy storage equipment .
