

EQACC SOLAR

Environmental project using Rwandan photovoltaic container 600kW

Overview

'Containerized' infrastructure solutions have the potential to power the needs of under-resourced communities at the Food/Water/Health nexus, particularly for off-grid, underserved, or remote populations. Dra.

How much solar energy is available in Rwanda?

With a potential of 4.5 kWh per m² per day and approximately 5 peak sun hours, solar energy has a huge potentiality in Rwanda.

How many MWh of clean electricity will Rwanda deliver?

It is expected to deliver an average of more than 15,000 MWh of clean electricity to the Rwandan grid. The project is hosted by the Agahozo-Shalom Youth Village, which is an orphanage for vulnerable youth, "Agahozo" meaning "where tears are dried" and "Shalom" meaning "peace" in Hebrew.

Will Rwanda increase the number of solar power plants?

The Government of Rwanda intends to increase the number of solar power plants to reduce the cost of production and take advantage of available renewable sources in Rwanda. Get Latest REG News Delivered Daily!

Environmental project using Rwandan photovoltaic container 600kW

Solar

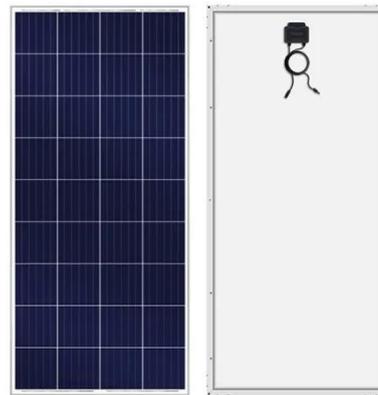

With a potential of 4.5 kWh per m² per day and approximately 5 peak sun hours, solar energy has a huge potentiality in Rwanda. Currently, Rwanda's total on-grid installed solar energy is ...

Product Model
HJ-ESS-215A(100KW/215KWh)
HJ-ESS-115A(50KW/115KWh)

Dimensions
1600*1280*2200mm
1600*1200*2000mm

Rated Battery Capacity
215KWH/115KWH

Battery Cooling Method
Air Cooled/Liquid Cooled
