

**EQACC SOLAR**

# **European companies exporting solar glass**

## Overview

---

Some of the companies in the photovoltaic glass market include SolarWindow Technologies, Onyx Solar, and SunPower. What is the Global Solar Photovoltaic Glass market?

The global solar photovoltaic glass market is moderately consolidated: the five largest producers command about 64% of melting capacity, yet regional pockets exhibit differing dynamics. Chinese leaders Xinyi Solar and Flat Glass Group deploy scale as their chief weapon, targeting 32,200 tonnes per day of combined capacity by end-2024.

Which countries dominate the Solar Photovoltaic Glass market in 2024?

Asia-Pacific dominates the solar photovoltaic glass market with 62% of global volume in 2024 and is set to expand at 19.90% CAGR to 2030. China's investment guidelines, finalized in late 2024, reward high-efficiency manufacturing and sustainability compliance, incentivizing upgrades to larger float baths and plasma sputtering lines.

How will the Solar Photovoltaic Glass market continue to grow?

Competitive strategies range from Chinese producers expanding commodity capacity to Western incumbents investing in circularity, low-carbon furnaces, and specialty coatings. These shifts together position the solar photovoltaic glass market for resilient growth throughout the decade.

How can manufacturers defend profitability in the Solar Photovoltaic Glass market?

Manufacturers now compete on scale, logistics efficiency, and coating innovation to defend profitability in the solar photovoltaic glass market. Cumulative solar capacity reached 1.6 TWdc in 2023, up 89% on 2022, while building-integrated photovoltaics (BIPV) gained momentum.

## European companies exporting solar glass

---

### Commission Regulation (EU) No 1205/2013 of 26 ...

(2) The investigation was initiated following a complaint lodged on 15 January 2013 by EU ProSun Glass ('the complainant') on behalf of producers representing more than 25 % of the total ...
