# **European energy storage station battery manufacturers**

## Overview

---

European energy storage battery manufacturers include companies like Northvolt, LG Energy Solution, and BASF.2.What is the future of battery manufacturing in Europe?

As global demand for sustainable energy solutions grows, Europe's battery manufacturing industry is undergoing unprecedented development. From the automotive industry to home energy storage systems, the demand for high-performance batteries continues to rise, driving technological advancements and fostering a host of innovative companies.

Who makes battery energy storage systems?

Continental AG Continental AG, a renowned automotive supplier, has actively developed electric vehicle batteries and battery energy storage systems (BESS). It was founded in 1871 and is headquartered in Hanover, Germany.

How does a battery company promote Europe's battery production independence?

It aims to promote Europe's battery production independence by using renewable energy for sustainable battery manufacturing. The company focuses on lithium-ion battery production and is developing high energy density and long-lasting battery technology.

How big is the battery market in Europe?

According to Blackridge's Europe Battery Market Report , the European battery industry is expected to grow from 10 GWh in 2020 to over 400 GWh by 2030. 2. Drivers of the Market Declining Lithium-ion Battery Prices: The decreasing prices of lithium-ion batteries are a key driver for market growth.
