

EQACC SOLAR

Extra-large capacity photovoltaic container for bridge construction in Andorra City

18650 CELL

18650 Battery Pack 2S1P

18650 Battery Pack
4S1P

Overview

What is a mobile solar PV container?

High-efficiency Mobile Solar PV Container with foldable solar panels, advanced lithium battery storage (100-500kWh) and smart energy management. Ideal for remote areas, emergency rescue and commercial applications. Fast deployment in all climates.

What is a solarfold photovoltaic container?

The Solarfold photovoltaic container can be used anywhere and is characterized by its flexible and lightweight substructure. The semi-automatic electric drive brings the mobile photovoltaic system over a length of almost 130 meters quickly and without effort into operation in a very short time.

How many PV modules are in a solar container?

The innovative and mobile solar container contains 196 PV modules with a maximum nominal power rating of 130kWp, and can be extended with suitable energy storage systems. The lightweight, ecologically-friendly aluminium rail system guarantees a mobile solution with rapid availability. at full power.

What is a self-unloading mobile solar container?

Self-unloading mobile Solar Container. Our Solar Containers are designed in a way to maximize ease of operation. It's not only meant to transport PVs but also to unfold them on site. It is based on a 20' sea container. The efficient hydraulic system helps quickly prepare the Solar to work.

Extra-large capacity photovoltaic container for bridge construction

ITALIAN AND ANDORRA ENERGY STORAGE CONTAINER

...

The Energy Storage System Container integrates advanced liquid cooling, high-capacity battery packs, and intelligent management systems to deliver reliable, efficient, and safe energy ...
