What is 11kV switchgear?

For protection and control, 11kV switchgear can be equipped with multifunctional digital relays to provide comprehensive protection functions, including overcurrent, earth fault, and arc-flash protection. Communication interfaces (IEC 61850, Modbus, etc.) enable integration with SCADA systems for remote monitoring and automated operation.

Where are our switchgears made?

Our growing capability encompasses an extensive range of switchgear for substations, overhead distribution and underground cables. Our core range is locally manufactured at one of our three Australian facilities. This range is augmented by our single-source partner Sieyuan Electric in China to provide additional voltages and technical solutions.
