## Overview

---

How much money is allocated to new sports arenas?

Over \$8 billion was allocated in public subsidies between 2000 and 2009. Despite a decrease in the percentage of public subsidies allotted to new sports arenas, the actual amount of money dedicated to these ventures has increased due to the growing costs of construction.

Do sports facilities receive government funding?

She has been president of ECS Consulting Associates since 1997 and regularly speaks and writes on management and executive coaching topics. <p>Sports facilities, particularly stadiums and arenas for professional teams, often receive significant government funding, sparking ongoing debates about the appropriateness and impact of such expenditures.

Should public funds be used to build sports stadiums?

The use of public funds to create facilities for privately-owned sports teams is an issue that has generated increasing scrutiny and controversy in recent years. Major cities are typically viewed as potential homes for professional sports teams, but team owners can rarely afford to build arenas or stadiums on their own.

How much did it cost to build a sports arena?

From 1970 through the early 1980s, the average sports arena cost around \$87 million to build, with approximately 90 percent of the cost being covered by public subsidies. The stadiums and arenas that were built in the 1960s and early 1970s were constructed along utilitarian rather than aesthetic lines.
