Freetown Folding Container

Overview

What is a Feurer insulated container?

FEURER insulated containers offer the ideal solution for the transportation and storage of temperature-sensitive products. Whether food, medical products or sensitive goods - our insulated containers ensure reliable temperature maintenance to keep your products fresh and safe at their destination.

Are high-heat thermoplastics fire resistant?

High-heat thermoplastics have a chemical backbone that is resistant to extreme temperatures. Flame-retardant plastics have no intrinsic resistance to high temperatures. Compounders use additives to fight against fire ignition and propagation. High-heat plastics would generally be too expensive for FR applications.

What is a thermocontainer Max?

Lightweight yet stable, it protects products from temperature fluctuations and thus enables safe transportation. The Thermocontainer MAX offers 862 liters of volume in a compact 120×80 cm. Robust, lightweight design ensures safe, environmentally friendly transportation of food.

What is a folding shipping container?

The Folding Shipping Container is an essential part of our Prefabricated Building offerings. Materials commonly used in prefabricated building construction include steel, concrete, wood, and glass. Each material offers unique advantages in terms of strength, durability, and design flexibility.
