# Georgia solar container outdoor power foreign trade

## Overview

---

Can Georgia move from import dependence to energy abundance?

“Moving from import dependence to energy abundance is well within reach for Georgia,” said IRENA Director-General Francesco La Camera.

How much energy does Georgia need?

Furthermore, around 4 GW of wind and 4.5 GW of solar photovoltaic (PV) unexploited capacity have preliminarily been identified by the assessment. Despite this potential, domestic energy production currently supplies less than a quarter of Georgia’s total energy needs, leaving the country heavily reliant on imported fossil fuels.

How much did Georgia export in 2024?

Georgia’s dynamic and resilient economy led to the fourth record-breaking year of export growth, totaling \$53.1 billion in 2024. Products from Georgia companies, many of which are small businesses, reached 219 unique global markets. Read the full report [Export highlights](#):

What percentage of Georgia exports are in strategic markets?

66.5% of exports and 83.2% of total trade occurred in strategic markets where Georgia Department of Economic Development maintains international representation. Port performance: Savannah Ports reported \$45.9 billion in exports, a 2% increase, and \$167.1 billion in total trade, up by 4%.
