

# Ghana's new energy storage policy update

## Overview

---

What does the new government mean for Ghana's energy sector?

**New Ministry of Energy & Green Transition** The new government led by H.E. John Dramani Mahama has signaled a commitment to greening the national grid by expanding the scope of the Energy Ministry to include the Green Transition in its portfolio. This marks an important policy shift towards greening Ghana's energy sector.

What is the Ghana national energy policy?

Data is now available through the .Stat Data Explorer, which also allows users to export data in Excel and CSV formats. A problem with this policy?

Tell us and we will take a look. The 2010 Ghana National Energy Policy encompasses cross-cutting plans to manage the major challenge of fast-growing energy needs for the national development agenda.

Why is Ghana facing a financial crisis?

Ghana's energy sector faces a financial crisis that threatens its long-term sustainability, efficiency, and ability to drive economic growth.

Does Ghana have solar power?

Ghana's daily solar insolation levels range from 4 kWh/m<sup>2</sup> to 6 kWh/m<sup>2</sup>, with a sunshine duration between 1800 and 3000 hours per year, which offers a high potential for solar electricity generation. Wind energy also holds untapped potential, particularly along Ghana's coastal regions, where wind speeds are favorable for electricity generation.
