

High-Temperature Resistant Solar Container for Campsites

Solar Panel

PV Combiner Box

Lithium Battery

Hybrid Inverter

Overview

What is a mobile solar PV container?

High-efficiency Mobile Solar PV Container with foldable solar panels, advanced lithium battery storage (100-500kWh) and smart energy management. Ideal for remote areas, emergency rescue and commercial applications. Fast deployment in all climates.

Are mobile solar containers a good choice for a remote home?

Mobile solar containers have excellent mobility and are particularly suitable for use in rural or remote areas with limited electricity usage. Off-grid solar power systems are a popular choice for remote homes as they provide a reliable source of electricity without being tethered to the grid.

Does a mobile solar container work with a lithium battery storage container?

The mobile solar container is designed to work seamlessly with lithium battery storage containers, allowing for efficient energy storage and use. This compatibility makes storing solar power easier when sunlight is unavailable. Lifespan is over 10 years old with reliable materials.

Why do petroleum companies use mobile solar containers?

Petroleum companies often operate in distant locations with limited access to grid power. This is where a mobile solar containers can act as an additional power source to run the equipment. Good choice for disaster reliefs whenever it is important to deliver electricity as quickly as possible.

High-Temperature Resistant Solar Container for Campsites

A study on frost and high-temperature resistance ...

Easy freezing and overheating of the flat panel solar collector (FPSC) limits its large-scale application. In addition to the characteristics of high ...

Product Model
HJ-ESS-215A(100kW/215kWh)
HJ-ESS-115A(50kW 115kWh)

Dimensions
1600*1280*2200mm
1600*1200*2000mm

Rated Battery Capacity
215KWH/115KWH

Battery Cooling Method
Air Cooled/Liquid Cooled
