High quality din rail breaker in Netherlands

Overview

What is a DIN rail circuit breaker?

A DIN rail circuit breaker is a type of circuit breaker designed for easy installation on a standard 35mm metal DIN rail. It mounts directly onto the front panel and snaps into place without requiring any external hardware.

What is a DIN rail?

A DIN rail or top-hat rail is a standardized 35 mm wide metal rail with a hat-shaped cross-section. It is suitable for mounting circuit breakers and industrial control equipment inside equipment racks. It makes installing or removing terminal blocks and other devices quick and easy.

What is a circuit breaker rack?

It is suitable for mounting circuit breakers and industrial control equipment inside equipment racks. It makes installing or removing terminal blocks and other devices quick and easy. In steel or aluminum, it is available in a variety of widths and heights that meet international standards.
