

EQACC SOLAR

High quality power switchgear in Uruguay

Overview

What is a low voltage switchgear?

DOHO low voltage switchgear is designed for safe and reliable distribution of electrical power in residential, commercial, and industrial applications. This type of switchgear is available in a variety of configurations, including circuit breakers, contactors, fuses and other components.

What is switchgear & how does it work?

Switchgear protects electrical equipment and circuits from damage caused by overcurrent, voltage spikes and other faults in the system. Our goal at DOHO is to be complete solutions provider for all your switchgear product needs.

What is gas insulated switchgear?

Gas-insulated and air-insulated switchgear have been fundamental to the reliable distribution and transmission of energy globally for years. Despite their critical role, these systems often overlook necessary maintenance schedules, leading to unforeseen outages.

Who is Doho electrical equipment & switchgear?

DOHO is one of the top electrical equipment and switchgear companies in the world, specializing in the production of low-voltage and medium-voltage switchgear as well as key components such as circuit breakers, relays, contactors, and protectors.
