

Home solar 2 kW

Overview

What is a 2 kW solar system?

These 2 kW size grid-connected solar kits include solar panels, DC-to-AC inverter, rack mounting system, hardware, cabling, permit plans and instructions. These are complete PV solar power systems that can work for a home or business, with just about everything you need to get the system up and running quickly.

Where can I buy a 2 kW solar system?

START SOLAR DESIGN Featuring daily updates with the lowest prices on solar panels, Sunwatts has a big selection of affordable 2 kW PV systems for sale. These 2 kW size grid-connected solar kits include solar panels, DC-to-AC inverter, rack mounting system, hardware, cabling, permit plans and instructions.

How much power does a 2KW Solar System produce?

Our 2 kW solar systems feature DIY solar kits, which will produce at least 2kW (or 2,000 watts) of power. This translates to approximately 175 to 375 kilowatt-hours (kWh) per month depending on your system choice, location and other factors. Choose between a 2kW solar kit with microinverters and a 2.4kW off-grid kit.

How do I get the best deal on a 2 kW solar system?

Now that you know what to expect, you can ensure that you get the best deal on a 2 kW solar energy system by registering your property on the EnergySage Solar Marketplace. Use the comprehensive, easy-to-understand comparison tables to evaluate your equipment options, financing offers, and solar company reviews.
