Hot sale China solar power to battery producer

Overview

Who makes solar panels in China?

China's major solar-panel makers have driven astonishing growth of solar power around the world in recent years. Companies such as Longi, Trinasolar and JinkoSolar have pushed down costs and manufactured at huge scale, helping global solar capacity climb from about 1.6 terawatts at the end of 2023 to 2.25TW at the end of 2024.

Why are Chinese companies focusing on battery storage?

Some companies in China have started to expand into battery storage over the past few years, helping to smooth out customers' electricity supplies and diversify their revenues. Trinasolar and JinkoSolar pushed into batteries earlier this decade.

Who owns PotisEdge & LONGi Solar panels?

Longi, one of the world's largest solar panel manufacturers, has just taken majority control of Canada-headquartered battery developer PotisEdge, and plans to sell combined solar and battery systems in international markets.

Can China build a battery factory in Zaragoza?

CATL, the Chinese battery maker, is building a factory in Spain and wants to bring 2,000 Chinese workers to the Zaragoza region, along with using about 3,000 mostly Spanish workers to run the plant. PotisEdge, Longi's battery subsidiary, has about 30GW of battery manufacturing capacity in China.

Product Model
HJ-ESS-215A(100KW/215KWh)
HJ-ESS-115A(50KW/115KWh)

Dimensions
1600*1280*2200mm
1600*1200*2000mm

Rated Battery Capacity
215KWH/115KWH

Battery Cooling Method
Air Cooled/Liquid Cooled
