How big an outdoor power bank should I bring to Romania

Overview

How much power does a power bank need?

It's a combination of several critical factors: Capacity (mAh): Measured in milliampere-hours (mAh), this indicates how much power the bank can store. For a weekend trip, a 10,000mAh to 20,000mAh power bank might suffice, but for longer excursions or if you have multiple devices, you'll need something more substantial.

What is the best power bank for camping?

The best power bank for camping really depends on your trip! For a quick weekend, a 10,000-15,000mAh power bank might be fine. For longer treks or if you have lots of gadgets, aim for a large power bank for camping like 20,000mAh or more, especially one with fast charging. How big should my power bank be for a 3-day trip?

.

What should you look for in a power bank?

Look for features like reinforced casings and port covers to protect against the elements. Charging Speed: Some power banks offer fast charging technologies like Power Delivery (PD) or Quick Charge (QC), which can significantly reduce the time it takes to top up your devices.

How much power do you need for a camping trip?

For a weekend trip, a 10,000mAh to 20,000mAh power bank might suffice, but for longer excursions or if you have multiple devices, you'll need something more substantial. Durability: Camping environments can be harsh, with dust, dirt, and potential drops.

 Invest in A Portable Charger
 It's very likely that you'll be visiting at least 1 or 2 cities during your time in Romania, so now I'm moving on to packing tips for these. Bucharest is the obvious favourite (and rightly so), but you shouldn't dismiss the country's other main cities of Cluj, Iasi, Timisoara and Brasov. As such, you should probably plan for a few good city days dur See more on [bigworldsmallpockets campingguider](#)
