What does the Bicentennial pier expansion mean for Peru?

Carlos Merino, CEO of DP World in Peru and Ecuador, said, "The completion of the Bicentennial Pier expansion marks a transformative moment for the Peruvian economy. The Port of Callao is the economic heart of Peru, handling over 90% of the country's containerised cargo, with 60% of that cargo moving through the South Terminal.

How will a direct container shipping route benefit South America?

By launching two direct container shipping routes connecting Shanghai and Chancay ports, the transit time for cargo from Peru to China will be reduced to just 23 days. Moreover, the introduction of a roll-on/roll-off (RoRo) service will facilitate the establishment of an automotive distribution center in South America.
