How many hydrogen energy stations are there in Sao Tome and Principe

Overview

Is biomass a source of electricity in Sao Tome & Principe?

Traditional biomass – the burning of charcoal, crop waste, and other organic matter – is not included. This can be an important source in lower-income settings. Sao Tome and Principe: How much of the country's electricity comes from nuclear power?

Nuclear power – alongside renewables – is a low-carbon source of electricity.

How can I help Sao Tome & Principe?

Help us do this work by making a donation. Sao Tome and Principe: Many of us want an overview of how much energy our country consumes, where it comes from, and if we're making progress on decarbonizing our energy mix. This page provides the data for your chosen country across all of the key metrics on this topic.

Where can I find information on hydrogen refuelling stations?

LBST has operated the database h2stations.org since 2005, offering the most comprehensive information on hydrogen refuelling stations worldwide. Data is collected and updated continuously from multiple sources on a best effort basis.

Does h2stations provide information on the availability of a hydrogen station?

H2stations.org does not provide information on the current availability of a hydrogen station, but does provide a global overview of the existing, planned and completed infrastructure. If you wish to submit station data and/or images, please supply such according to this template and send it to webmaster@h2stations.org.
