# How much is a home inverter worth

## Overview

---

How much does a solar inverter cost?

The inverter is a crucial part of your solar investment, whether you're on the grid or building an off-grid solar system. It connects your solar photovoltaic panels to your home and the grid, determining whether your energy is usable, storable, or wasted. Expect to pay \$1,000 to \$3,500, depending on type, size, and features.

Are inverter units worth the cost?

Inverter units claim to give more energy savings, and can cool a room faster compared to non-inverter units. However, inverter units also cost more. To help you decide whether an inverter unit is worth the additional cost, read on. Need aircon installation?

Book our pros for express service! Or, need aircon servicing?

We do that too.

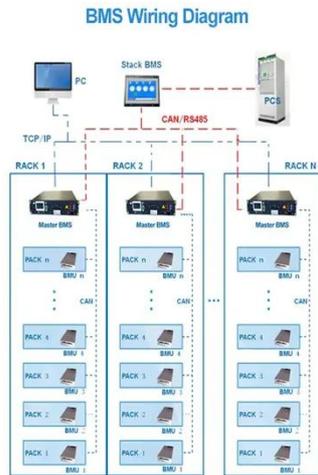

Which inverter is best?

1. Type of Inverter String inverters are the most affordable. Hybrid inverters cost more because they handle more functionality. Microinverters, one for each panel, have the highest cost per watt due to their quantity. 2.

Are solar inverters a good choice for your home?

Modern solar inverters for home come with enhanced efficiency, offering higher conversion rates. More efficient inverters tend to be slightly more expensive but provide better energy output.
