

# Huawei Gonghe Energy Storage Project

## Overview

---

What is power China Qinghai Gonghe - 50MW tower CSP project?

This page provides information on Power China Qinghai Gonghe - 50MW Tower CSP project, a concentrating solar power (CSP) project, with data organized by background, participants, and power plant configuration.

What is Qinghai's 'photovoltaic-pastoral storage' project?

This marks the full capacity grid connection of the company's second 1-million-kilowatt photovoltaic project in 2023. The image shows an aerial view of Qinghai Company's Hainan Base under CHINA Energy in Gonghe County with its 1 million kilowatt 'Photovoltaic-Pastoral Storage' project.

How much money has been invested in China's new energy storage station?

The project has a total investment of approximately 4.5 billion yuan, covering an area of 24,900 mu. It is divided into 315 sub-arrays and is currently the largest single energy storage station under construction on the domestic grid side.

What is Huawei digital power?

Huawei Digital Power is dedicated to enhancing the safety and stability of renewable integration by combining digital and power electronics technologies, leveraging technical experience, and collaborating with global power companies, grid enterprises, and electricity providers.

## Huawei Gonghe Energy Storage Project

### Huawei and Huanghe reflect on world's largest renewable energy ...

The project, the culmination of nine months of collaboration between Huanghe and Huawei, has become the world's largest single PV plant, as well as the quickest renewable energy power ...
