

EQACC SOLAR

Indian solar container battery air transport

Overview

Are lithium batteries shipped in a container?

There are three packaging categories for lithium batteries if they are being shipped in a container. When shipping lithium batteries, it is crucial to check the rules and regulations ahead of transportation, or work with an experience shipping partner to ensure that your cargo is shipped following best practices.

Can You ship lithium ion batteries by air?

For example, the IATA and ICAO have specific rules for shipping lithium-ion batteries by air. There have been incidents of batteries causing fires within the aircraft and forcing emergency landings. Batteries are not allowed in unaccompanied luggage by air freight.

Are batteries allowed in air freight?

There have been incidents of batteries causing fires within the aircraft and forcing emergency landings. Batteries are not allowed in unaccompanied luggage by air freight. If not inside a device like a smartphone, the batteries must be in a hard cased container.

How many lithium-ion batteries can be sent by air?

If not inside a device like a smartphone, the batteries must be in a hard cased container. There are restrictions as to how many lithium-ion batteries can be sent within separate containers by air. Only a maximum of four can be sent, with two per container, and each battery must have a rating of below 100 watts per hour.
