Indonesia Surabaya solar glass exports increase significantly

Overview

Why is the Indonesia glass manufacturing market growing?

The Indonesia Glass Manufacturing Market, valued at USD 5.8 billion, is growing due to urbanization, construction boom, and demand for high-performance glass in automotive and consumer sectors. The Indonesia Glass Manufacturing Market is valued at USD 5.8 billion, based on a five-year historical analysis.

Could US tariffs threaten Indonesia's solar panel exports?

Indonesia's solar panel exports have soared in recent years, reaching record highs despite mounting trade pressure from the United States. Now, a petition filed by U.S. manufacturers could trigger new tariffs that threaten Indonesia's growing presence in the clean energy market.

Why is Indonesia attracting investment in solar manufacturing?

Indonesia is attracting investment in solar manufacturing due to US tariffs on Chinese and other Southeast Asian solar products. The country has relaxed regulations and incentivized foreign companies to establish solar manufacturing facilities in Indonesia.

Does Indonesia's plan to export solar power spur investment?

The plan to export solar power has spurred investments in the manufacturing of components, according to a January 2025 report by the Jakarta-based Institute for Essential Services Reform (IESR). "Foreign solar manufacturers are significantly increasing their investments in Indonesia.
