

**EQACC SOLAR**

# **Indonesian electrochemical energy storage solar container lithium battery**

## Overview

---

Jambi, Febru- PT Cipta Kridatama (CK), a subsidiary of PT ABM Investama Tbk (ABMM), in collaboration with SUN Energy, has inaugurated Indonesia's first and largest Containerized Battery Energy Storage System (CBESS) for Solar Power. What is Indonesia's first & largest containerized battery energy storage system?

Indonesia's First & Largest Containerized Battery Energy Storage System. Off-grid solar energy system at PT Cipta Kridatama equipped with CBESS. The CBESS solar energy system at PT Cipta Kridatama Jambi operates off-grid, making it a reliable, self-sustaining energy source without dependence on the national electricity grid.

Will Indonesia build a battery energy storage system by 2022?

The agreement was made with other state-owned bodies, such as the Indonesian Battery Corporation, to build the Battery Energy Storage System by 2022. However, no information has yet been revealed about the Battery Energy Storage System's location or specific functions.

Will Indonesia build an EV battery facility in 2026?

By 2026, Indonesia and CATL intend to establish an EV battery facility with a capacity of 40 GWh, including solar storage.

Will Indonesia Open a lithium-ion EV battery plant in West Java?

Source: Reuters Indonesia's Battery Corporation and CATL will open a lithium-ion EV battery plant in West Java by end-2026 with 6.9 GWh capacity, expandable to 15 GWh and 40 GWh with solar storage, supporting 600k EVs annually by 2030.
