

EQACC SOLAR

Industrial switchgear factory in Cambodia

Overview

Who is SVI Cambodia?

Discover SVI Cambodia, a leading EMS provider and one of the top manufacturing companies in Cambodia, delivering scalable, high-quality PCBA, box-build, and testing solutions.

What is Cambodia's photovoltaic factory?

Since its establishment, the Cambodia factory has focused on the current uneven local development of electricity, customizing small off-grid household photovoltaic systems for rural areas that lack electricity, providing electricity support and promoting the development of green power.

How big is the Cambodia factory?

The Cambodia factory covers a total area of 20,000 square meters with a total investment of 2.5 million US dollars. The factory was established in August 2020, and the construction started in November of the same year.

What makes SVI Cambodia unique?

SVI Cambodia's core competencies lie in its ability to combine flexible production capabilities with a highly skilled technical workforce. The facility supports both high-volume, low-mix and low-volume, high-mix manufacturing, providing end-to-end EMS solutions such as PCBA, box-build assembly, and testing with precision and efficiency.
