Industrial uninterruptible power supply equipment in the Democratic Republic of Congo

PUSUNG-R (Fit for 19 inch cabinet)

Overview

What is the supply voltage in Democratic Republic of Congo?

In Democratic Republic of Congo the supply voltage is 220V. If the appliance is a single voltage rated appliance, it will need to operate at the same voltage as the supply voltage of the country i.e. 220V. If this is not the case it should be used alongside a voltage transformer or converter to allow the appliance to work safely and properly.

What products does Congo energy offer?

Congo Energy supplies a wide range of products tailored to the specific requirements of its customers' sectors of activity. From industrial lighting to street lamps, automation systems and energy management, Congo Energy offers reliable, superior quality products, carefully selected from its partners.
