Investment in home energy storage in Timor-Leste

Overview

Why should Timor-Leste invest in solar & storage infrastructure?

José added: “The investment in Timor-Leste’s solar and storage infrastructure is transformative. It will help reduce dependence on fossil fuels while improving grid stability and energy access across the country”. José de Ponte was supported by special counsel Marnie Calli, senior associate Lisa Huynh and solicitor Jeraldine Mow.

What is the Timor-Leste solar power project?

The Project involves the construction and 25-year operation of a new power plant in Manatuto, Timor-Leste, comprising a 72 MW solar power plant co-located with a 36 MW/36 MWh battery energy storage system. This will be the country’s first full-scale renewable energy IPP project.

What is energy security in Timor-Leste?

1 Energy security is “uninterrupted availability of energy sources at an affordable price”; International Energy Agency. The average payback period for a rooftop PV solar energy system in Timor-Leste is 2.5 years. This is much lower than the global average of 6 to 10 years, due to solar resource and electricity costs:.

Does Timor-Leste need a roof-top solar energy system?

In addition, most of Timor-Leste's electricity is generated through costly and polluting diesel generators. Australia's Market Development Facility (MDF) and ITP Renewables conducted an assessment of the potential market for roof-top solar energy systems in Timor-Leste.

Investment in home energy storage in Timor-Leste

Powering Timor-Leste's future with its first solar plant and ...

José added: "The investment in Timor-Leste's solar and storage infrastructure is transformative. It will help reduce dependence on fossil fuels while improving grid stability and ...

Power Sector Development Plan for Timor-Leste

This study is the first of its kind, and establishes the basis for future development of the power sector in Timor-Leste, including generation, transmission, distribution and ...

Timor leste renewable energy

The Operations Management Team started weighing the feasibility and working on a cost-efficient alternative energy solution in 2016-2017 when Timor-Leste was facing high electricity costs ...

TIMOR-LESTE INVESTMENT GUIDE 2023 EDITION

Furthermore, Timor-Leste is a dynamic and growing economy regarding Foreign Direct Investment (FDI) flows. During the last decade, it has presented a cyclical trend ...

CPS sector assessment

Energy was included in the country partnership strategy, 2011-2015 for Timor-Leste, but the Asian Development Bank (ADB) has had limited engagement in the sector. 10 ...

Timor-Leste to invest A\$1 billion in economic development

ASEAN's newest member state Timor-Leste is driving economic development through a A\$1 billion infrastructure and resources spend, plus the establishment of a new bank ...

Timor-Leste

Based on the cost of investments benefiting grid-connected households (average \$640 per connection plus subsidized tariff), a substantial upfront cost subsidy for a modest ...
