

EQACC SOLAR

Ireland's commercial and industrial solar container energy storage system

Overview

What is the electricity storage policy framework for Ireland?

The Electricity Storage Policy Framework for Ireland This is a strategic initiative aimed at transforming Ireland's energy infrastructure. As the use of renewable energy sources increases, so too does the challenge of managing the intermittent nature of these energy sources and ensuring that a stable energy infrastructure is in place.

Which energy storage companies are working in Ireland?

Statkraft delivered the first energy storage project in Ireland with Fluence in 2020, at its Kilathmoy wind farm and the company has continued to have a strong presence in the Irish energy storage field since then. The company is also lining up another milestone project soon, with the country's first four-hour duration energy storage system.

What is energy storage Ireland (ESI)?

1. Introduction Energy Storage Ireland (ESI) is a representative association of over 70 public and private sector organisations who are interested and active in the development of energy storage in Ireland and Northern Ireland.

Will Ireland be a business-friendly market for energy storage?

The publication of the Electricity Storage Policy Framework sends a clear and positive signal to potential developers and funders that Ireland intends to be a business-friendly market for energy storage, writes Seanna Mulrean, Consultant and Head of Energy and Natural Resources at LK Shields.
