

EQACC SOLAR

Irish behind-the-meter energy storage products company

Overview

What is energy storage Ireland (ESI)?

Energy Storage Ireland (ESI) is a representative association for those interested and active in the development of energy storage in Ireland and Northern Ireland.

Why should Ireland support energy storage?

By supporting energy storage Ireland can enable more renewable electricity on the grid, reduce our reliance on imported fossil fuels and our exposure to volatile gas commodity prices while significantly lowering our carbon emissions. November 2024.

Is energy storage a game changer for Ireland & Northern Ireland?

May 2022 Baringa Partners show that energy storage is a game changer for Ireland and Northern Ireland's renewable energy ambitions in terms of its ability to manage renewable oversupply, reduce CO2 emissions, provide low carbon capacity and reduce costs to consumers.

Why do we need BTM storage in Ireland?

As greater levels of BtM storage are deployed across Ireland, efficient use of such systems can ensure that Ireland's electricity grid is able to handle higher levels of renewable energy and reduce our use of fossil fuels.
