

## EQACC SOLAR

**Is the energy storage power station owned by the power supply company**

## Overview

---

What is Ningxia power's energy storage station?

On March 31, the second phase of the 100 MW/200 MWh energy storage station, a supporting project of the Ningxia Power's East Ningxia Composite Photovoltaic Base Project under CHN Energy, was successfully connected to the grid. This marks the completion and operation of the largest grid-forming energy storage station in China.

What is the largest grid-forming energy storage station in China?

This marks the completion and operation of the largest grid-forming energy storage station in China. The photo shows the energy storage station supporting the Ningdong Composite Photovoltaic Base Project. This energy storage station is one of the first batch of projects supporting the 100 GW large-scale wind and photovoltaic bases nationwide.

How is CSG building the new energy system?

CSG is building the New Energy System and the New Power System through green and digitized transformations.

Where does CSG supply electricity?

CSG supplies electricity to five provincial-level regions — Guangdong province, Guangxi Zhuang autonomous region, Yunnan province, Guizhou province, and Hainan province — as well as Hong Kong and Macao special administrative regions.
