# **Israel commercial energy storage exports**

## Overview

---

When will energy storage facilities be built in Israel?

(3) The Electricity Authority will publish a tender in September 2023 for the establishment of Energy Storage facilities with a total capacity of 900MW. Israel plans to use its abundant gas resources to leverage the development of a gas-based auxiliary industrial sector.

Does Israel export natural gas?

Other than supplying Israel's domestic natural gas demand, the export market for natural gas produced in Israel is growing significantly. Total exports of natural gas from Israel in 2022 increased by 29% compared to 2021. Of the total exports, exports to Egypt grew by 37%, and exports to/via Jordan grew by 16%.

How does Israel respond to electricity consumption forecasts?

In light of these challenges, the Government of Israel is promoting several programs to respond to electricity consumption forecasts, while reducing pollution and increasing the use of natural gas and renewable energy.

How much natural gas will Israel Export in 2022?

For more information see the Policy & Government Decisions section of this website. It is estimated that in 2022, total exports of natural gas will approach 10 BCM, generating revenues exceeding NIS 1.5 billion (\$440 million) for the Israeli government.
