

## EQACC SOLAR

# Italian super electrolytic capacitor

## Overview

---

Who are itelcond capacitors?

ITELCOND is a historic Italian company which has since 1976 been manufacturing high-capacity aluminium electrolytic capacitors for applications requiring a high level of quality. Our product range covers everything from large screw capacitors to small capacitors for printed circuit boards, at all times within the professional sphere.

Who makes high-capacity aluminum electrolytic capacitors (e-caps)?

Since 1976, the traditional Italian company ITELCOND has been manufacturing high-capacity aluminum electrolytic capacitors (E-CAPS) for demanding power requirements. The company offers a wide range of products from large screw capacitors to small PCB capacitors.

What are e-caps capacitors used for?

The company offers a wide range of products from large screw capacitors to small PCB capacitors. The E-CAPS are used in various industries, including electrical appliance manufacturers, power equipment manufacturers (solar and wind energy), UPS power supplies, inverters, motor controls, and medical equipment.

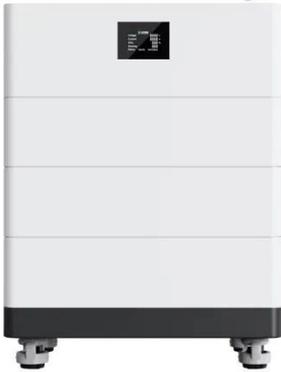

What are the different types of capacitors?

Their product range includes large can screw terminal capacitors with high-end performance, snap-in terminal capacitors commonly used on PCBs, motor start capacitors for alternating current applications, aluminum cans film capacitors, plastic box film capacitors and snubber film capacitors.
