# Japan Communications Rural 5G Base Station

100KW/174KWh

Parallel up-to 3sets

IP Grade 54

EMS AND BMS

## Overview

---

Does Ericsson have a 5G base station?

. Ericsson (NASDAQ: ERIC) was selected by the Japanese communications service provider KDDI as a partner for Japan's first vault 5G base stations. The company will support KDDI in deploying "manhole-shaped" 5G base stations, supplying sub-terrain antennas.

Does Rakuten mobile have a 5G base station?

Leveraging its expertise in building a fully virtualized, cloud-native mobile network based on Open RAN standards in Japan, Rakuten Mobile will continue to rapidly deploy 5G Sub6 base stations and expand its coverage area.

What 5G frequency does a Japanese telecommunications station use?

The station uses the 5G frequency defined by the 3GPP. In FY2021, the Japanese project cooperated with a Thai telecommunications carrier in developing a Local 5G network using O-RAN 5G equipment and conducting demonstration tests for Local 5G applications.

Why is 5G so popular in Japan?

For the same reason, Japan has allowed operators to mount 5G base stations atop traffic signals since 2022, which has accelerated 5G deployments throughout the nation, as reported by GMSA. Higher-capacity use cases will be able to thrive as tiny cells are deployed and network density is enhanced.
