

## EQACC SOLAR

# Japan Osaka solar power generation and energy storage company

✓ LIQUID/AIR COOLING

✓ INTELLIGENT INTEGRATION

✓ PROTECTION IP54/IP55

✓ BATTERY /6000 CYCLES

## Overview

---

Does Japan have a solar power industry?

Japan's solar power industry presents several key considerations for potential investors and stakeholders. The country has set ambitious renewable energy targets, aiming to increase its solar energy capacity significantly as part of its commitment to reduce greenhouse gas emissions.

Is Japan a good place to invest in solar energy?

Japan's position in the global market is significant, as it is one of the largest solar energy markets, providing a gateway for companies looking to expand their renewable energy portfolios in Asia.

Which solar sensor manufacturer owns and operates its own PV plants?

As the only solar sensor manufacturer that owns and operates its own PV plants, the company is committed to advancing renewable energy through innovation and support for future generations in the field. EKO Instruments is the only solar sensor manufacturer in the world that owns and operates its own PV plants.

Who is Sunergy group?

With over 15 years of experience, the company, Sunergy Group, specializes in solar energy solutions, installing solar panels to ensure energy savings and efficiency for businesses. Their commitment to innovation and sustainability is evident in their extensive portfolio of over 100 projects both nationally and internationally.
