

EQACC SOLAR

Jerusalem Off-Grid Solar Container 15kW

Overview

What is a 15kW hybrid solar system?

A 15kW hybrid solar system seamlessly integrates the advantages of both on-grid and off-grid solar systems, connecting to the electricity grid for the sale of excess power and incorporating a battery bank for energy storage during grid outages or high-demand periods.

How does a 15 kW solar system work?

In addition to these components, a 15 kW solar system ensures a continuous power supply for the home by incorporating a reliable battery bank. This battery bank acts as a storage solution for excess energy when solar production decreases.

How much does a 15kW solar system cost in India?

This battery bank acts as a storage solution for excess energy when solar production decreases. The fully installed 15kW solar system cost ranges between \$15,000 to \$31,000 after considering the rebate and incentives. If you are considering the 15kW solar system with battery backup cost in India, the pricing and specifications will be as follows:.

How does an off-grid solar system work?

The 15kW off-grid solar system, equipped with a backup, functions autonomously and operates independently of the grid, serving as a standalone power solution. Commonly used in remote areas or utilized as a backup during outages, it provides self-sufficient power.
