**Juba folding containers are  
used for communication at port  
terminals**

## Overview

---

Why did JRPA not implement cargo handling in Juba?

handled safely and efficiently at Juba port. No cargo handling has been implemented by JRPA. The reason is that the Juba River Port has not been renovated by the grant aid project, so the port has not had necessary equipment items in place, such as cranes. The original cargo handling equipment was tra.

Why did the Juba port not achieve output 4?

which saw a sharp drop due to the tensions between Sudan and South Sudan, has not recovered. Furthermore, owing to the conflict in 2016, regional ports have suspended their operation. As a result, it was impossible to achieve Output 4 related to cargo handling at the Juba port.

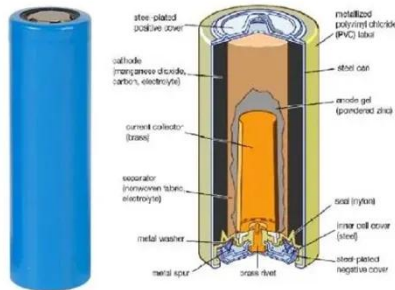

Can foldable containers improve logistics management?

Capacity Improving Logistics Management Using Foldable/Collapsible Containers: A Case Study G 179 G constraints in ports for storing and repositioning empty standard containers are major concerns in the logistics and port industry. As an alternative, foldable containers have been introduced into the market.

What is the goal of the Juba river port project?

shared with the personnel evacuated to Juba through day-to-day work at the Juba River Port. The Overall Goal, which is to facilitate transportation and enhance the transportation capacity of river ports in South Sudan, was expected to be achieved by enhancing cargo
