

**EQACC SOLAR**

# **Kabul Solar Container Two-Way Charging**

## Overview

---

What is two-way charging?

Two-way charging is a two-way solar tariff for residential and business solar customers. It's designed to: encourage customers to export excess energy generated at times when it's needed the most. Why do we need two-way charging?

.

How do we manage exporting solar energy back to the grid?

This means the way we manage exporting excess solar energy back to the grid needs to change. In 2021, the Australian Energy Market Commission (AEMC) identified we need to support the integration of rooftop solar more efficiently into the electricity grid. One solution is the introduction of two-way charging.

Can I Opt in to solar two-way charging?

Yes, you can opt in to solar two-way charging, however you will see a \$0 solar export charge on your bill. More information about solar rates in your state.

Will AEMC introduce two-way charging in 2021?

In 2021, the Australian Energy Market Commission (AEMC) identified we need to support the integration of rooftop solar more efficiently into the electricity grid. One solution is the introduction of two-way charging. When will two-way charging be introduced by EnergyAustralia?
