

EQACC SOLAR

Kiev home solar power system

Overview

What is Solar supports Ukraine?

“The Ukrainian Solar Energy Association is proud to launch the ‘Solar Supports Ukraine’ campaign together with European solar industry associations. The campaign aims to provide solar energy benefits to people in need across Ukraine.

Why is solar energy important in Ukraine?

The campaign aims to provide solar energy benefits to people in need across Ukraine. Solar energy has a great potential for providing electricity and heat where the centralised supply is not possible due to the war. Every solar kilowatt matters.”.

Can solar power plants help Ukrainian society?

“Solar power plants can help Ukrainian society,” Sokolovskyi says, by giving energy independence to private citizens and businesses. Moreover, support for critical infrastructure like hospitals, clinics and schools – the kind of work Semenyshyn’s Repower Ukraine does – often comes from PV and energy storage combined.

How much solar power does Ukraine have in 2024?

Figures from the Solar Energy Association of Ukraine (SEAU) earlier this year showed that the country added around 850MW of solar PV capacity in 2024, the majority of which came from self-consumption systems installed by businesses. It’s “become a trend”, Semenyshyn says.
