Kingston new energy storage terminal manufacturer

Overview

Is Kingston looking to exit China's embedded storage market?

After announcing a joint venture in late 2023 to tap into China's embedded storage market, Kingston is reportedly looking to exit the Chinese market, with its Shanghai plant rumored to be up for sale at over US\$1.2 billion. This development has stalled the collaboration, though the China-based Longsys insists it's still pushing the venture forward.

Are Longsys & Kingston going out of business?

The partnership between memory giants Longsys and Kingston seems to have hit a major snag. After announcing a joint venture in late 2023 to tap into China's embedded storage market, Kingston is reportedly looking to exit the Chinese market, with its Shanghai plant rumored to be up for sale at over US\$1.2 billion.

Why is Kingston a global company?

Kingston has established manufacturing facilities around the world to meet the growing needs of the storage and memory market on a global scale.

Will Tesla's Shanghai energy storage megafactory expand?

At the launching ceremony, Mike Snyder, Tesla's vice president of energy and charging, noted that Tesla's Shanghai energy storage Megafactory is scheduled to ramp up production this quarter, which will assist Tesla to expand into more markets. "We've witnessed the incredible speed of Shanghai and Tesla once again.
