

EQACC SOLAR

Kiribati Generator Communication BESS Power Station

 **TAX FREE**    

ENERGY STORAGE SYSTEM

Product Model
HJ-ESS-215A(100KW/215KWh)
HJ-ESS-115A(50KW 115KWh)

Dimensions
1600*1280*2200mm
1600*1200*2000mm

Rated Battery Capacity
215KWH/115KWH

Battery Cooling Method
Air Cooled/Liquid Cooled

Overview

Is Kiribati launching a solar PV project?

The Oceania located nation of Kiribati has started construction on the country's largest solar PV project that's backed by the Asian Development Bank and the Government of New Zealand. It will be accompanied by a battery energy storage system (BESS). The 7.5 MW South Tarawa Renewable Energy Project (STREP) is located on the Bonriki water reserve.

What is Kiribati integrated energy roadmap?

Government of Kiribati. 2015. Intended Nationally Determined Contribution. International Renewable Energy Agency. 2017. Kiribati Integrated Energy Roadmap: 2017–2025. Includes \$10 million from the ADF 13 thematic pool grant supporting the disaster risk reduction and climate change adaptation strategic area.

Who is behind the STREP project in Kiribati?

Pictured are ADB and local government representatives at the groundbreaking ceremony of the STREP project in Kiribati. (Photo Credit: Asian Development Bank) The Oceania located nation of Kiribati has started construction on the country's largest solar PV project that's backed by the Asian Development Bank and the Government of New Zealand.

Does Kiribati have a resettlement plan?

A Resettlement Plan has been prepared in compliance with the SPS and laws of Kiribati. 114. The Resettlement Plan outlines the project impacts and this plan will be disclosed to affected persons by MELAD and made available on the ADB website.

Kiribati Generator Communication BESS Power Station
