# **Latest Amsterdam PV Energy Storage Policy**

## Overview

---

How much money does the Netherlands spend on battery energy storage?

Netherlands' climate minister has allocated €100 million in subsidies to the deployment of battery energy storage system (BESS) technology.

How much does the Dutch government pay for battery storage?

The Dutch government has earmarked €100 million (\$106.7 million) of subsidies for the deployment of battery storage alongside PV projects. The funds are part of a €416 million subsidy program announced last year to alleviate grid congestion.

When will a new battery storage scheme open in the Netherlands?

The scheme is scheduled to open on Jan. 1, 2025, and end in 2034. The funding is part of a €416 million subsidy program that was announced last year. The Dutch government said it would allocate the funds from the climate package issued in 2022, with the subsidies to facilitate the deployment of 160 MW to 330 MW of battery storage.

Why do we need solar-PV systems in the Netherlands?

Developing new systems and solutions for a sustainable supply of clean energy, particularly solar energy, is crucial in this transition. The Dutch focus on solar-PV and energy storage In the Netherlands, the high demand for solar-PV systems drives our commitment to ensuring a sufficient and safe supply chain.
