

**EQACC SOLAR**

# **Latest Price of 20MWh Mobile Energy Storage Container for Catering Industry**

## Overview

---

What is Qianyuan Smart Storage 20mwh?

The Qianyuan Smart Storage 20MWh system marked its first external exhibition debut at SNEC 2025, where a product launch event and certification ceremony were held. Adopting a modular integration design, the system achieves a single-container capacity of 20MWh and a design lifespan of 25 years, leading the global industry.

Will China increase electrochemical energy storage capacity by 2030?

Furthermore, the government is also planning to drastically increase the electrochemical energy storage capacity by 2030. According to the State Grid Corporation of China, China is targeting electrochemical energy storage installed capacity of 30GW by 2025, and it will increase to 100GW in 2030.

What is the energy storage capacity in China in 2021?

In 2021, The energy storage capacity in China was 46.1 GW; the pumped hydro segment is dominating the energy storage market in China with a total installed capacity of 39.8 GW, which is around 83% of total energy storage capacity.

How big is China's battery production capacity in 2021?

In 2021, the global battery production capacity was around 600 GWh. Furthermore, Chinese battery manufacturers have announced plans to build over 3,000 GWh capacity by 2030. The battery manufacturing companies will start an additional 200 battery manufacturing plants by 2030.
