

**EQACC SOLAR**

# **Latvian solar glass greenhouse manufacturer**

## Overview

---

EOS with strong box section aluminium profiles, full length rubber glazing strips and storm bracing available, EOS Greenhouses are a wise choice.

What is a senior Victorian greenhouse?

On Senior Victorian greenhouses all profiles are powdercoated (green / grey color) and include the victorian freeze. The Eos 200/40 by Janssens is a Victorian era design with extra high eaves and roof with steep 40 degree roof bars and optional narrow glazing this traditionally styled greenhouse is made in Belgium to perform in any environment.

What is a junior Victorian greenhouse?

On Junior Victorian greenhouses all profiles are powdercoated (black color). The victorian freeze and the steep roof angle give it the look of those typical English houses. The Junior greenhouse is a greenhouse of good quality at a reasonable price, within the means of all.

How many Gigant greenhouse models are there?

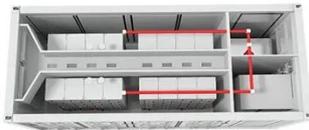

There are 2 models to choose from, the Gigant Hobby in standard silver aluminium finish or the Gigant Victorian, with its traditional greenhouse roof crestings and a choice of green or black powder-coated frame. Both models are fully customisable by adding additional doors and custom sizes are available upon request.

What is an oversized Helios greenhouse?

GIGANT: An "oversized" Helios is an alternative name for this greenhouse. The same high-quality profiles and features ensure that even professional gardeners will find something to their liking in this model.
