## Overview

---

What is the Lisbon solar project?

The primary goal of the Lisbon Solar project is to promote production of electricity for purposes of self-consumption. It includes introduction of these policies for both the public and private sector. The funds allocated for this project reached around 500 million euro, which presents 36,3% of total investment funds until 2026.

What does Portugal's energy storage tender mean for the energy transition?

Portugal's government has announced the outcome of an energy storage tender that will see the installation of 500 MW of energy storage capacity to support the country's energy transition. Energy storage battery. Photo by Anna Vasileva.

What is Lisboa solar?

Lisbon is no different. The project Lisboa Solar, presented by Mayor Carlos Moedas, is following this trend. Lisboa Solar is part of a broader strategy called the Great Options 2022-2026 Plan, also known as GOP. The primary goal of the Lisbon Solar project is to promote production of electricity for purposes of self-consumption.

Which solar-plus-storage projects are available for public consultation?

The projects listed for public feedback on the government's consultation portal include two solar-plus-storage sites. Two solar-plus-storage projects are among five planned renewable energy sites whose details have been published for public consultation on the Portuguese Environment Agency's Participa portal.
