London solar panel manufacturers

Overview

Are solar panels growing in the UK?

The solar panel manufacturers in the UK continue to witness sustained growth in the country's solar industry. According to Blackridge Research's Global Solar PV Market Report , about 18 GW of solar capacity was installed as of Q1 2025.

Who are uksol solar panels?

UKSOL is a British family-owned solar panel producer specialising in the design and manufacturing of residential and commercial solar panels. The company has made a name for itself by offering good quality solar PV panels at competitive prices.

Where are solar panels made?

It's true that most solar panels across the world are made in China, but there are plenty of British and European-based companies involved in the process too. Choosing the right solar panel manufacturer, as well as the right sized system, can seem daunting. That's where we want to help.

How many homes in the UK have solar panels?

According to the latest government data, over 1.4 million homes in the UK have installed solar panels. With a wide range of choice out there, this grand total is made up from many different solar panel manufacturers.
