

## EQACC SOLAR

# Long-term agreement for photovoltaic containers used in field research

**Outdoor Cabinet BESS**  
50 kWh/500 kWh Battery Storage System  
Industrial and Commercial Energy Storage

- All In One**  
Integrating battery packs
- High-capacity**  
50-500kWh
- Degree of Protection**  
IP54
- Operating Temperature Range**  
-20~60°C (Derating above 50 °C)
- Intelligent Integration**  
integrated photovoltaic storage cabinet
- Rated AC Power**  
50-100kW
- Altitude**  
3000m(>3000m derating)

## Overview

---

The procurement auction scheme for long-term photovoltaic (PV) energy contracts is being implemented in various countries to ensure stable profits for potential PV generators. However, in most of the.

What is a solar contract?

Solar Contracts are fine-tuned for small and medium-sized, grid-connected solar PV projects. Standardised contracts include: Power Purchase Agreement, Implementation Agreement, O&M Agreement, Supply Agreement, Installation Agreement and Finance Facility Term Sheet. These are complemented by the Implementation Guidelines.

What are standardised solar contracts?

Standardised contracts include: Power Purchase Agreement, Implementation Agreement, O&M Agreement, Supply Agreement, Installation Agreement and Finance Facility Term Sheet. These are complemented by the Implementation Guidelines. Open Solar Contracts review phase is now over.

What is open solar contracts?

Open Solar Contracts is an initiative which streamlines project development and finance processes by offering legal agreements that make contracting faster and less costly. Standardised contracts include Power Purchase Agreement, Implementation Agreement, O&M Agreement, Supply Agreement, Installation Agreement and Finance Facility Term Sheet.

What is PV reliability research & development?

Our PV reliability research and development provides companies with the information they need to improve PV product lifetime, availability, and performance and decrease the operation and maintenance costs of PV systems.
