## Overview

---

How many solar power plant projects are in Luxembourg?

Following a call for projects launched in October 2022, 85 solar power plant projects by 75 Luxembourg companies qualified for public funding. These projects will receive a total investment aid of €16.1 million. Some of the selected companies received support from Luxinnovation.

Are Luxembourg companies ready to play a role in the energy transition?

“The result of this call for projects is a success for the Luxembourg economy and for the climate: the companies present on our territory have demonstrated that they are ready to play an active role in the local energy transition.

Why does the Grand Duchy need solar energy?

Solar energy is a source of clean energy, which helps the Grand Duchy to achieve its development objectives for renewable energies, and which is one of the solutions to break out of energy dependence on Russian fossils.

How much money will a photovoltaic power plant project receive?

The projects will receive a total of approximately €16 million in financial aid. In the next 18 months, these companies will implement the photovoltaic power plant projects with at least partial self-consumption of the electricity produced. The combined capacity of these plants will be over 46-megawatt peak (MWp).
