

Macedonia's largest solar glass factory

Overview

What is the solar market like in North Macedonia?

The solar market in North Macedonia benefits from several favorable conditions, including a favorable geographic location with high solar irradiation, which is critical for solar energy production.

Does Macedonia have a solar energy plan?

Historically, the country's journey toward solar energy began with the National Energy and Climate Plan (NECP) established in 2022, which set clear targets for renewable energy consumption. Macedonia – new player in solar industry.

Is Macedonia a new player in solar industry?

Macedonia – new player in solar industry. A pivotal moment occurred in 2020 with the launch of the first significant solar plant, and by 2023, North Macedonia had experienced a 251% increase in solar capacity, demonstrating the effectiveness of government initiatives in fostering growth in the sector.

What is happening in North Macedonia's solar energy landscape?

A significant turning point in North Macedonia's solar energy landscape occurred in December 2020 with the launch of the first 1.48 MW solar plant by EVN Macedonia in Voshanci. This project utilized innovative two-sided panels that enhance electricity production through reflection.
