Magadan export solar module price

Overview

How many solar panel export shipments from India?

The content on this page is generated based on the extensive Global Trade data and India import data housed in Volza's databases. Further details are outlined below: Analyze 27,640 Solar Panel export shipments from India till Jul-24. Export data includes Buyers, Suppliers, Pricing, Qty & Contact Phone/Email.

Are Indian PV manufacturers focusing on the export market?

Indian PV manufacturers are increasingly focusing on the export market. Until FY2024, three of the largest domestic PV manufacturers – Waaree Energies, Adani Solar and Vikram Solar – accounted for most of India's PV modules exports. Each company exported more than half of its annual actual production in FY2024.

Which country exports the most PV modules in India?

Most Indian PV exports are to the US, which accounted for 97% and 99% of India's PV exports in FY2023 and FY2024, respectively. India also exports PV modules to South Africa, Somalia, Kenya, the UAE, Afghanistan, Nepal and Bangladesh. The US has imposed steep tariffs on PV products from China to gradually phase out Chinese imports.

How much does a resale solar module cost?

For example, N-Type modules by REC listed for resale in May and July pushed up weighted average prices to \$0.411 and \$0.460 respectively. P-Type modules in September increased to \$0.311 as modules by Sirius PV, Solar4America, and Panasonic were remarketed. The same price increase was present in P-Type Bifacials for the month of December.
