

**EQACC SOLAR**

# Main products of solar glass

**215kWh**

8,000+ Cycles Lifetime

IP54 Protection Degree

## Overview

---

### Who makes solar Photovoltaic Glass?

As a leading solar photovoltaic glass manufacturer, it is a holding business for investments that produces and sells photovoltaic glass goods. IRICO Group is widely recognized as one of the world's top solar photovoltaic glass manufacturers. It was founded in 1984 and is currently headquartered in Beijing, China.

### What is Solar Photovoltaic Glass?

Solar photovoltaic (PV) glass is a specialized type of glass that integrates solar cells, which generate electricity from the sun's rays. In order for the glass to turn sunshine into energy, a layer of translucent solar cells is coated onto the surface of the glass.

### What are solar cells made of?

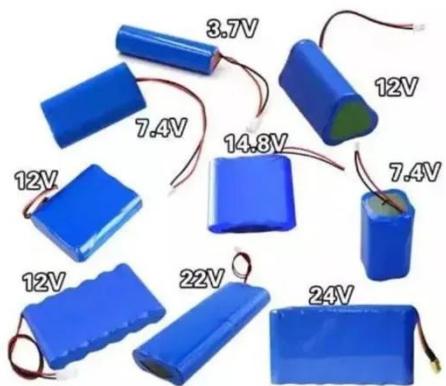

It is composed of low iron glass, solar cells, film, back glass, and special metal wires. The solar cells are sealed between a low iron glass and a back glass through film, making it the most innovative high-tech glass product for construction. Using low iron glass to cover solar cells can ensure high solar transmittance.

### What is photovoltaic smart glass?

Photovoltaic glass, also known as solar glass or transparent solar panels, is a type of smart glass that uses embedded photovoltaic cells to convert sunlight into electricity to generate electricity.
