# **Malaysia builds energy storage power station**

## Overview

---

Is Sarawak Energy launching a battery energy storage system in Malaysia?

With the growing demand for reliable electricity supply, Sarawak Energy has recently commissioned the first utility-scale Battery Energy Storage System (BESS) in Malaysia.

What is Malaysia's first utility-scale battery energy storage system?

Malaysian utilities company Sarawak Energy has commissioned what is described as the nation's first utility-scale battery energy storage system (BESS). The 60 MW/82 MWh BESS, which was first energized in Dec 2024, shares the site with the soon-to-be-phased-out Sejingkat Power Plant, first commissioned in 1998.

What is Sarawak's first battery energy storage system?

KUCHING: Sarawak made history with the launch of Malaysia's first utility-scale Battery Energy Storage System (BESS) at Sejingkat Power Station, led by Sarawak Energy Berhad (SEB). The 60-megawatt (MW) BESS began operations in December 2024, marking a significant milestone in modernizing the state's energy infrastructure.

What is Malaysia's first large-scale battery project?

In 2024, Malaysia launched its first large-scale storage initiative, known as MyBeST, to build four grid-connected battery systems of 100MW/400MWh each. The bidding round opened in May and closed in July, with winning projects expected to come online by 2027.
